SLA Scorecard

Contratado

Disponibilidade da Aplicação

>= 99.5%

Chamados – Sev 1

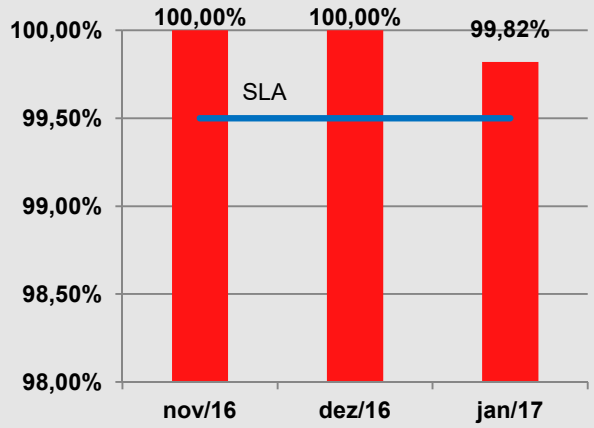

90% dos chamados resolvidos em menos de 4 horas para Unplanned Outage.
Ou 24 hours para Service Interruption (Falha funcional)

Chamados – Sev 2

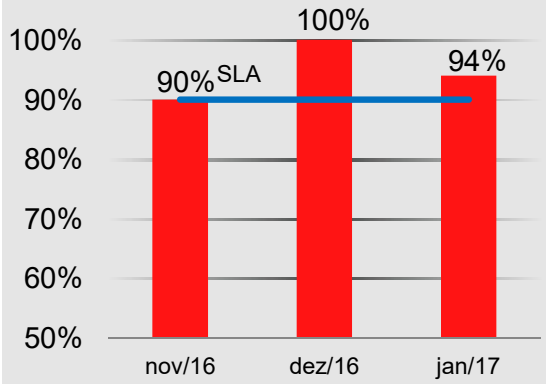

90% dos chamados resolvidos em menos de 96 horas

Alcançado

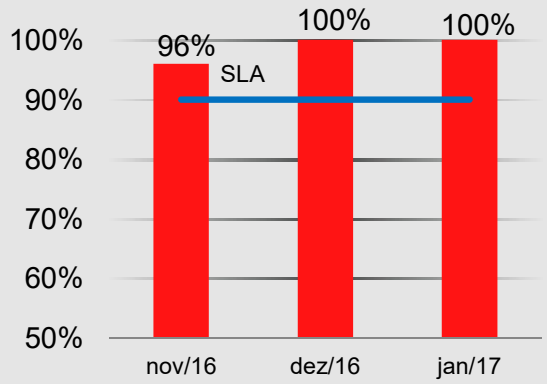

Disponibilidade (Siebel)

Chamados – Sev 1

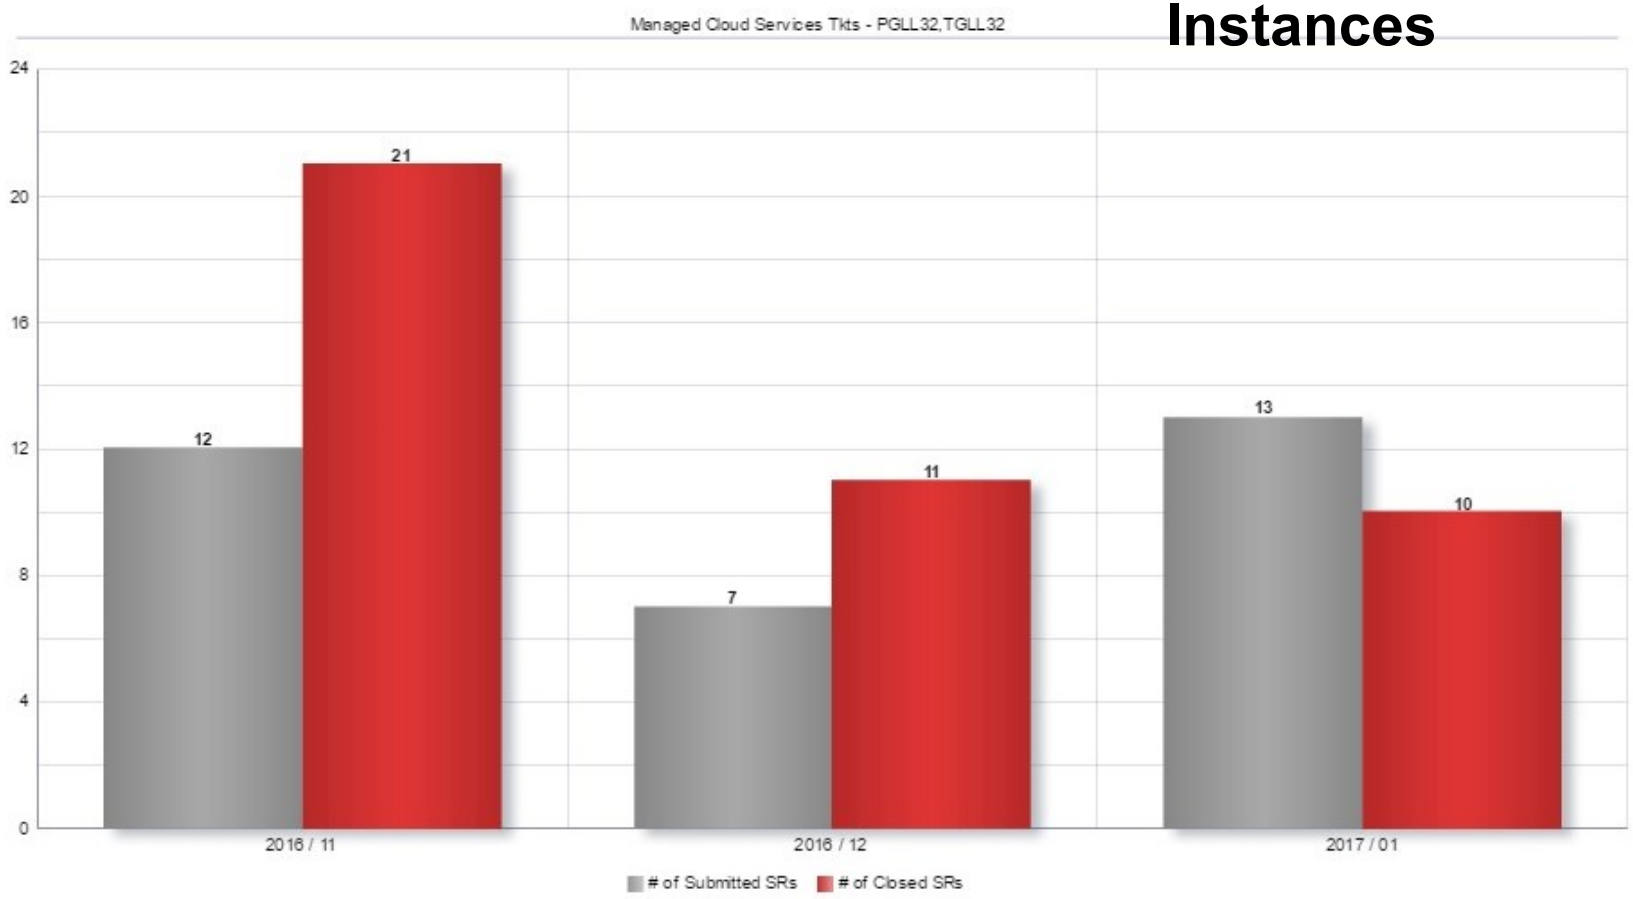

Chamados – Sev 2

Gerenciamento de Problemas – Siebel Jan2017

Begin	End	Total Time	Type	SR#	Issue/Resolution	Business Impact to Customer	Additional Information?	Status
1/5/2017 5:46:18 AM	1/5/2017 6:31:18 AM	45min	total	3-13835240215	Problem: Received a system generated incident 10559973 stating that Failed to connect to database instance. Analysis: During analysis, found that db host mounts got filled, and unable to clear the file consuming huge size. Action Performed: Engaged SA to clear the space. IM SA suggested, Instance level FS was full, please check with the respective application team. On further observation both DB nodes got crashed. Mean time SAR SR was created to OHSSA team to add additional space for the mount points. Space was added. Started DB and other services manually. Performed health checks and released the instance to the customer. --Reviewed & Closed	medium-high dure to occurring out of business hours.		Storage move done for fixing problem.
1/6/2017 5:33:44 AM	1/6/2017 6:07:44 AM	34min	total	3-13989065209	Problem: Received a system generated incident 10559973 stating that Failed to connect to database instance. Analysis: During analysis, found that db host mounts got filled, and unable to clear the file consuming huge size. On further observation both DB nodes got crashed. Mean time SAR SR was created to OHSSA team to add additional space for the mount points. Space was added. Started DB and other services manually. Reviewed & Close	medium-high dure to occurring out of business hours.		Storage move done for fixing problem.

Tempo Total de Todos os Incidentes	79min
