THE AMBITION

WHO THIS IS FOR & WHY WE'RE DOING THIS

WHO WILL FIND THIS GUIDE USEFUL?

BEING AWARE OF THE NEW CONVENTION IS RELEVANT FOR THE FOLLOWING TEAMS:

AGENCY

- MEDIA PLANNERS
- MEDIA BUYERS
- AD OPS
- ANALYTICS / REPORTING
- CREATIVE

MARS

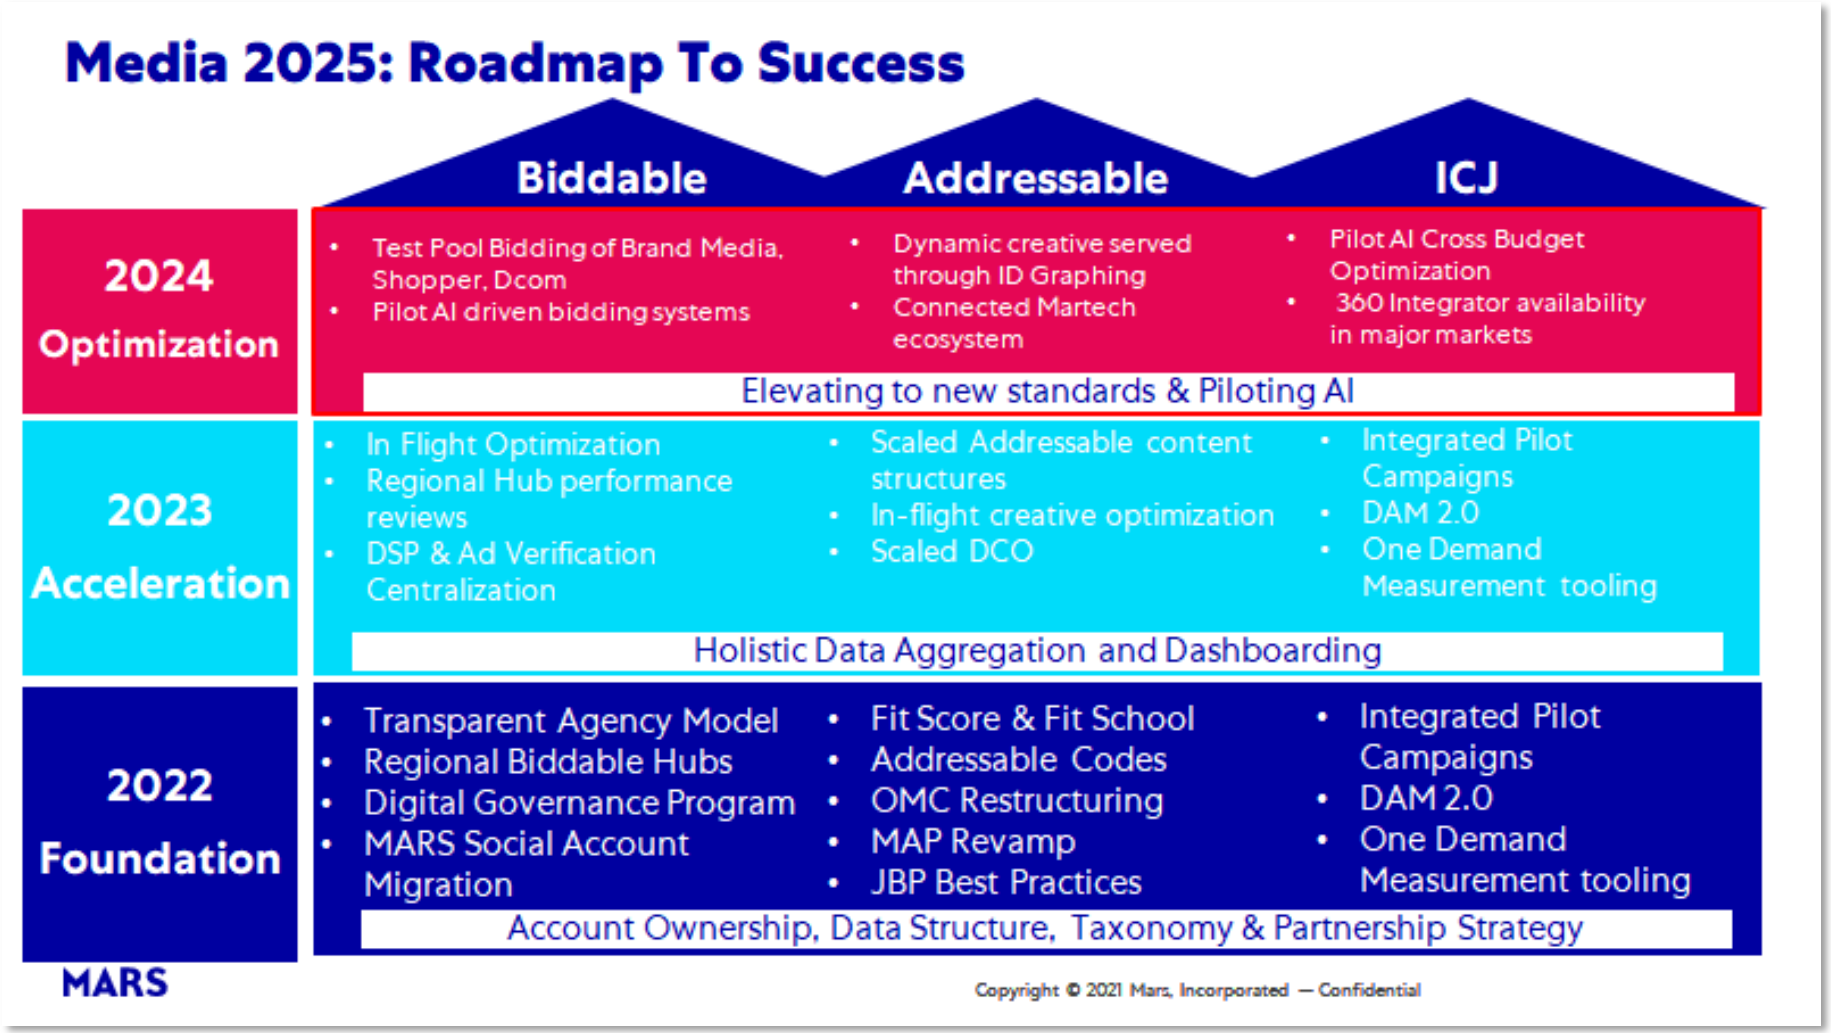

- MEDIA
- CONTENT
- ANALYTICS / REPORTING

UPDATING THE CONVENTION & DEPLOYING MORE WIDELY IS CRITICAL TO THE SUCCESS OF M2025

GOING FROM		TO
Part-standardized naming convention	→	Fully-standardized global, cross-segment naming convention
Untracked use of addressable and other key dependencies	→	Minimal free entry points, with new fields tracking M2025 outputs
Inconsistent compliance across channels	→	**Media auditing** via Ebiquity, naming convention compliance is being measured

M2025 REQUIRED US TO EVOLVE OUR FOUNDATIONS

WHY ARE WE DOING THIS?

We needed to evolve our naming convention to enable as much insight into our executions as possible, without compromising campaign setup efficiency.

This will allow for enhanced reporting across WPP & Mars-owned dashboards – and more importantly, time saved on analysis and drawing insight.

Copyright © 2022 Mars, Incorporated — Confidential

WHAT ARE THE BENEFITS?

ALL SEGMENTS: TRACKING INVESTMENT AGAINST ADDRESSABLE/ICJ/BIDDABLE & OPPORTUNITY TO CONNECT MEDIA & CONTENT

MARS WRIGLEY

Easy portfolio investment tracking against ***chocolate, confections, ice-cream*** *etc*

Spend against specific audience moment targeting (e.g ***Music, Dating, Sport***)

MARS Food

Easy portfolio investment tracking against ***ready to heat, masterfoods*** *etc*

Seeing investment between non-skippable & bumper placements on YouTube

MARS Petcare

Easy portfolio investment tracking against ***main meals***, ***treats*** *or* ***super-premium health***

Tracking against **where** we are sending users to e.g **PetsAtHome**, **Carrefour** or a **Mars D2C** site

EXECUTIVE SUMMARY FOR CREATIVE

Making a minor adjustment to creative file names will make a big difference!

WHAT'S CHANGING

Naming convention 2.0 is **all lower-case** and has **no spaces**

The creative name provided will be used in the ad level string (alongside other values)

This field will be a **free entry field**, but is crucial for creative analysis across media agency & client dashboards

EXECUTIVE SUMMARY FOR CREATIVE

Making a minor adjustment to creative file names will make a big difference!

WHAT'S CHANGING

Naming convention 2.0 is **all lower-case** and has **no spaces**

The creative name provided will be used in the ad level string (alongside other values)

This field will be a **free entry field**, but is crucial for creative analysis across media agency & client dashboards

WHAT WE NEED FROM YOU

Provide creative file names in the format needed to fit into the new taxonomy

This means **everything** being in lower case, having no spaces, and separators changed to **"-" instead of "_"**

TAXONOMY RULES

Rules to follow when creating new campaigns

The **separator for each information field is a underscore (“_”)**

DO NOT leave free space and do not replace underscores (“_”) with dashes (“-”) or add additional underscores (“_”) in free fields

Everything has to be in **lowercase**, so **NO** uppercase letters to be used

None of the values must have free space, this also counts for between multiple words (e.g. young families), all free spaces should be **replaced by a dash (“-”), NOT** underscores (“_”)

DO NOT use “&” symbol, as it will break the UTM tracking
