# INSTRUCTIONS FOR PARTNER ACCESS IN META BUSINESS MANAGER

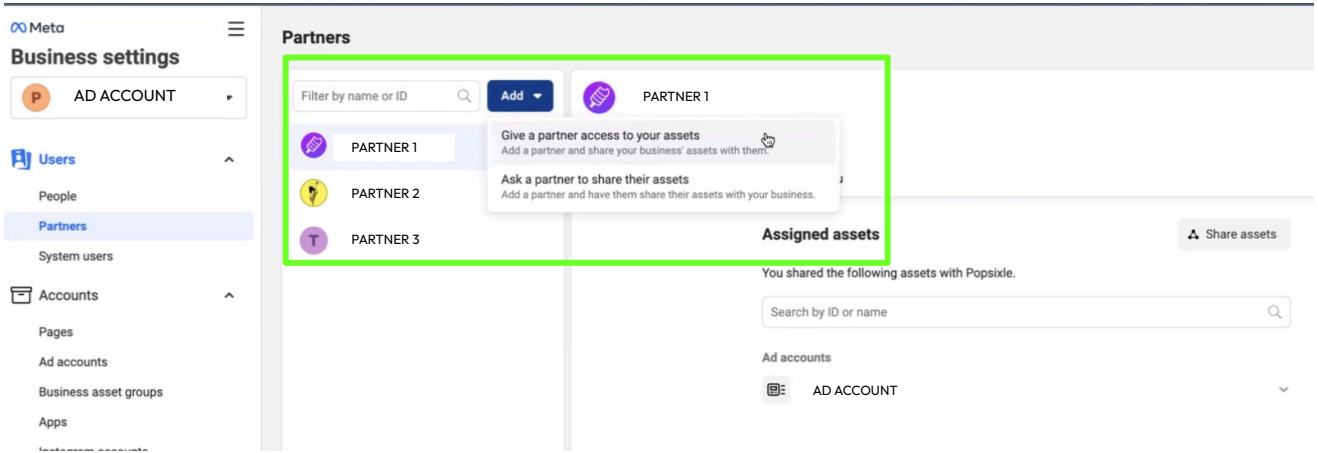

# GET STARTED

- First, go to business.facebook.com and log in to your Business Manager account
- Go to the Ad Account you wish to enable IAS for
- Then, click ‘Partners’ under ‘Users’

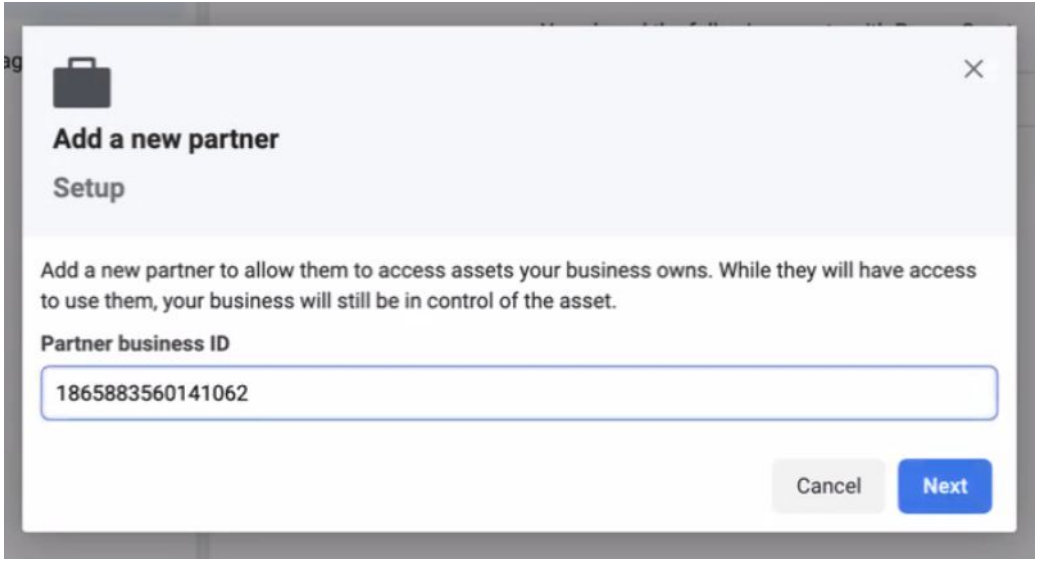

# ADD PARTNER ACCESS

Click ‘Add’ then ‘Give a Partner Access to Your Assets’

# ADD PARTNER ACCESS:
# BRAND SAFETY & SUITABILITY

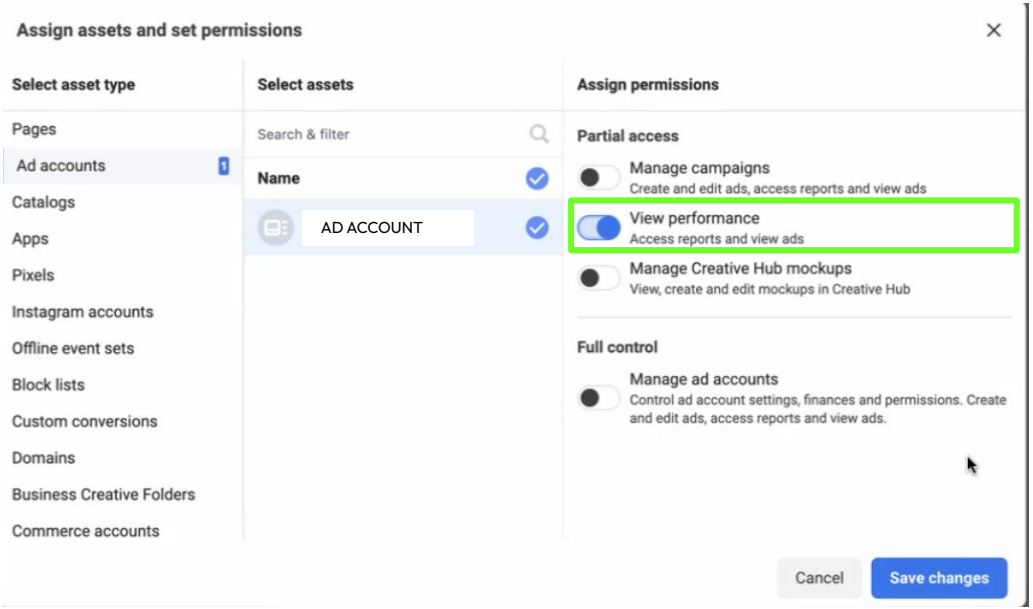

In the ‘Add a new partner’ box, enter the input IAS Brand Safety  Partner Business ID: 1865883560141062 and click next

# ADD PARTNER ACCESS

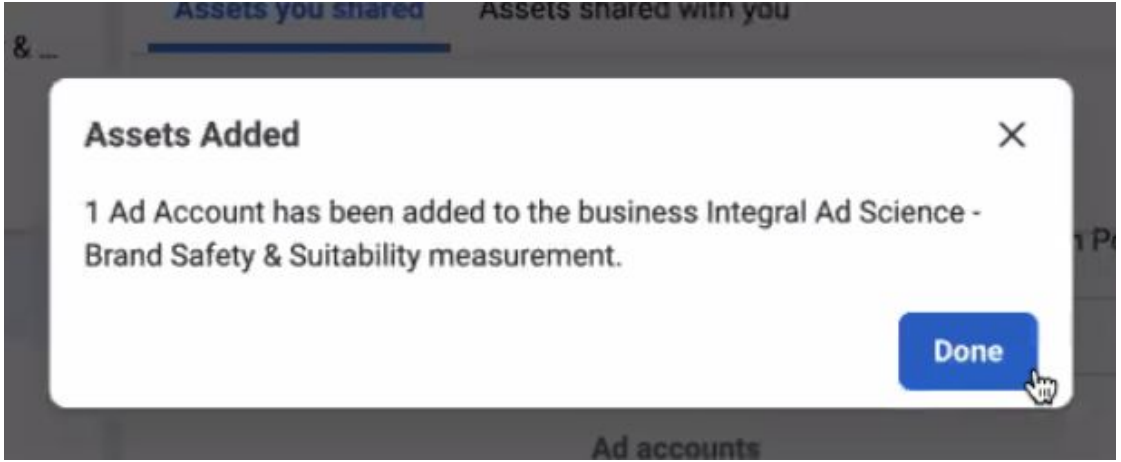

From there, select all ad accounts for IAS measurement, and enable ‘View Performance’

Press save changes

# ADD PARTNER ACCESS
# BRAND SAFETY & SUITABILITY

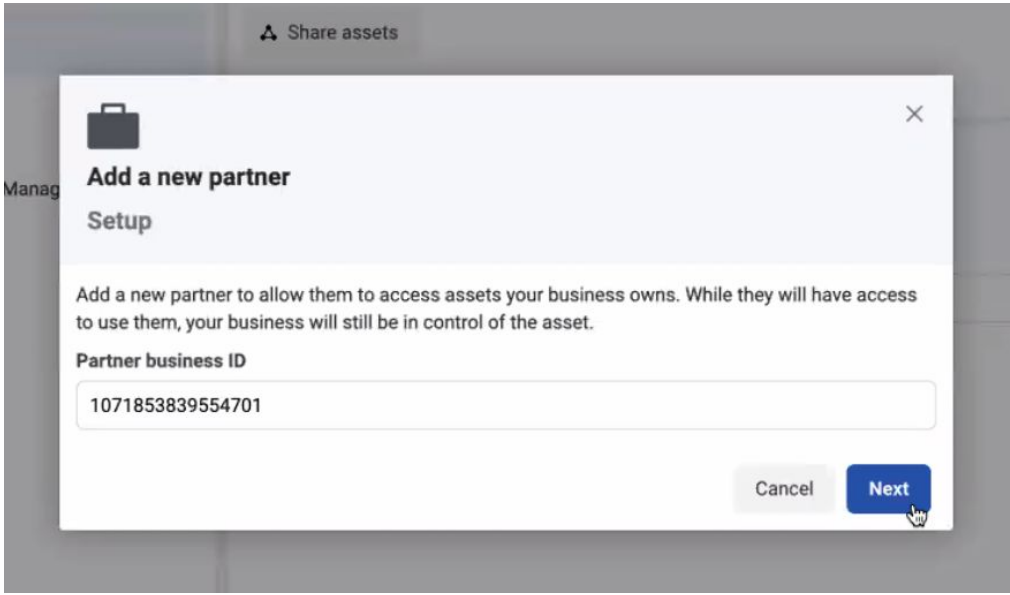

You should then see a pop up validating IAS has been added to your ad account

# ADD PARTNER ACCESS: VIEWABILITY

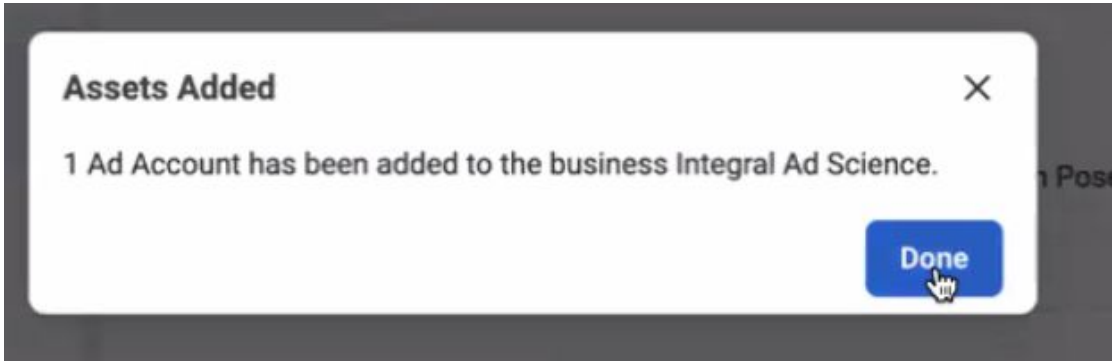

If you have not done so already, repeat the following steps to enable IAS for Viewability once Brand Safety is complete.

In the ‘Add a new partner’ box, enter the input IAS Viewability Partner Business ID: 1071853839554701 and click next

# ADD PARTNER ACCESS VIEWABILITY

After following the steps, you should then see a pop up validating IAS has been added to your ad account

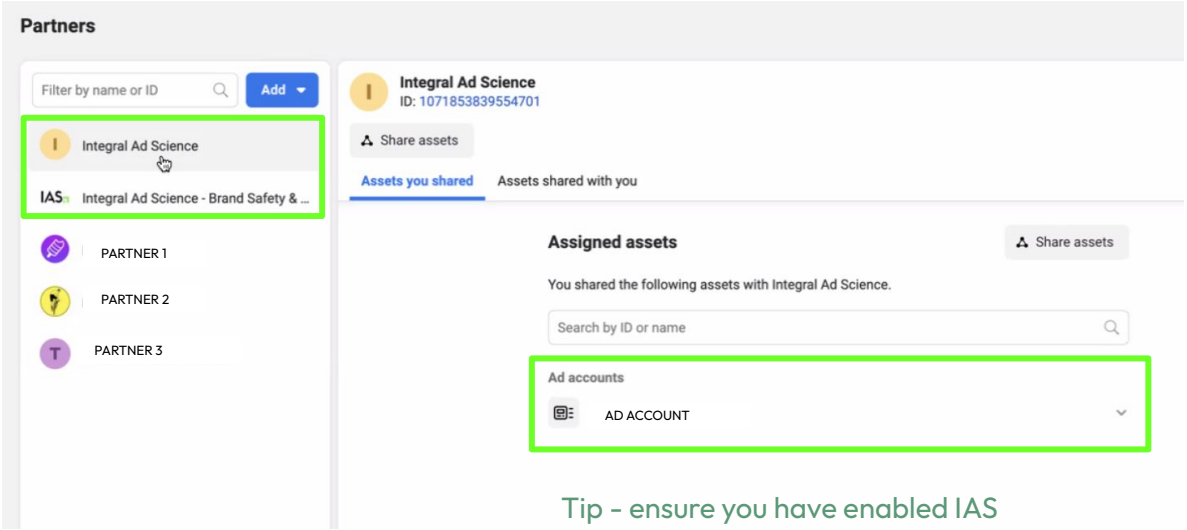

# VALIDATE PARTNER ACCESS

To validate you gave IAS partner access within Meta Business manager correctly and for relevant ad accounts, you can check in your partner page.

As you can see here, you should see <u>two</u> Integral Ad Science partners, representing Viewability and Brand Safety, name:

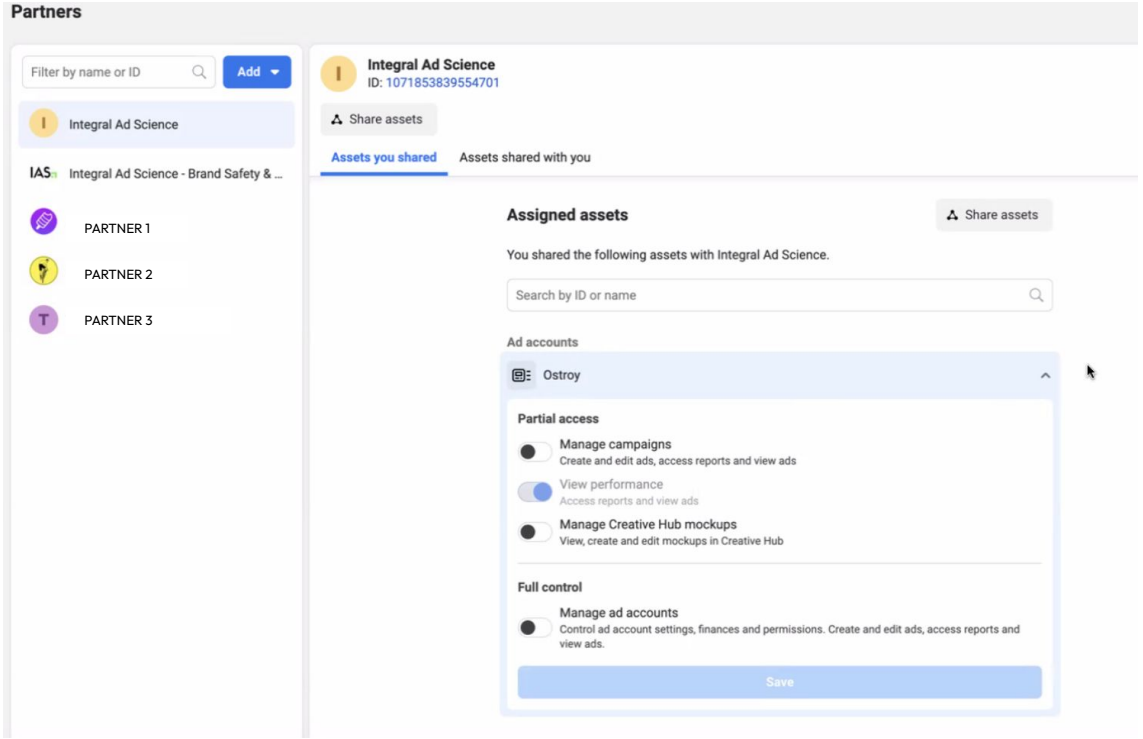

- Integral Ad Science
- Integral Ad Science - Brand Safety & Suitability

Tip - ensure you have enabled IAS for all relevant Ad Accounts here

# VALIDATE PARTNER ACCESS

Additionally, ensure you have granted ‘View Performance’ for IAS.

# ADD PARTNER ACCESS

Once you have successfully set up IAS in your Business Manager account, please:

- Have a second Business Admin navigate to https://business.facebook.com/settings/requests/admin_reviews in order to provide secondary approval for the access, if needed
- Reach out to your existing IAS representative to let them know you've chosen IAS as your verification vendor for your Meta campaigns
- Once activated and verified by IAS, Meta results will appear directly in the IAS Signal Platform

# Congratulations

You have now successfully added IAS for Viewability and Brand Safety on Meta Business Manager.

Helpful reminders:

- This is a one time step required for each ad account
- Please ensure Viewability and Brand Safety are both enabled

If you need additional help or have questions, please reach out to your IAS representative.
