Royal Canin Naming Convention Change

AGENDA

1. The ambition
   - Who is this for
   - Why Its being changed and the benefits
2. Implementation
   - Fields, values and rules guides
   - Building and Validating the convention
3. Next Steps
   - Deployment timeline
   - What we need from you

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

The Ambition

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

WHO WILL FIND THIS GUIDE USEFUL?

Being aware of the new convention is relevant for the following teams:

EssenceMediacom

- MEDIA PLANNERS
- MEDIA BUYERS
- AD OPS
- ANALYTICS / REPORTING
- CREATIVE

ROYAL CANIN®

- MEDIA
- CONTENT
- ANALYTICS / REPORTING

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

WHY ARE WE DOING THIS?

We needed to evolve our naming convention to enable as much insight into our executions as possible, without compromising campaign setup efficiency.

This will allow for enhanced reporting across WPP & Mars-owned dashboards – and more importantly, time saved on analysis and drawing insight.

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

UPDATING THE CONVENTION AND DEPLOYING MORE WIDELY IS CRITICAL TO THE SUCCESS OF M2025

Going from		To
Part Standardised Naming convention	→	Full-standardised global, cross segment naming convention
Untracked use of addressable and other key dependencies	→	Minimal free entry points with new fields tracking M2025 outputs
Inconsistent compliance across channels	→	Media auditing via ebiquity naming convention compliance is being measured

All markets will need to follow this structure

This is happening across all channels which there will be rollout calls for specifically

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

WHERE WILL IT BE USED

All channels to follow campaign name convention where applicable

BIDDABLE			NON-BIDDABLE DIRECT BUYS		
SEARCH	SOCIAL	PROGRAMMATIC (Inc YouTube)	DISPLAY	VIDEO	AUDIO

+ any other relevant channels

What is changing

CAMPAIGN — Use this across **all systems** where possible

AD SET (OR DIRECT BUY) — For Direct Buys – this means the **placement name**

AD

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

THE IMPACT ON ROYAL CANIN

DASHBOARD

The Global Dashboard will need to be redeveloped

In order to ensure our Global Media dashboard continues to function we will need to change our data stream to represent the new data structure

Work in Progress

REPORTING

New convention will impact current reporting

As reports are all set up on current naming convention, connections with existing reports will need to be amended to factor in the new values and to ensure consistency YOY

Work in Progress

ALL MARKETS

All markets will have to follow the convention

Whereas before the RC naming convention was only applied to markets connected to the global dashboard, the new cross segment convention will be applied to every market from 2024

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

GLOBAL DASHBOARD REDEVELOPMENT

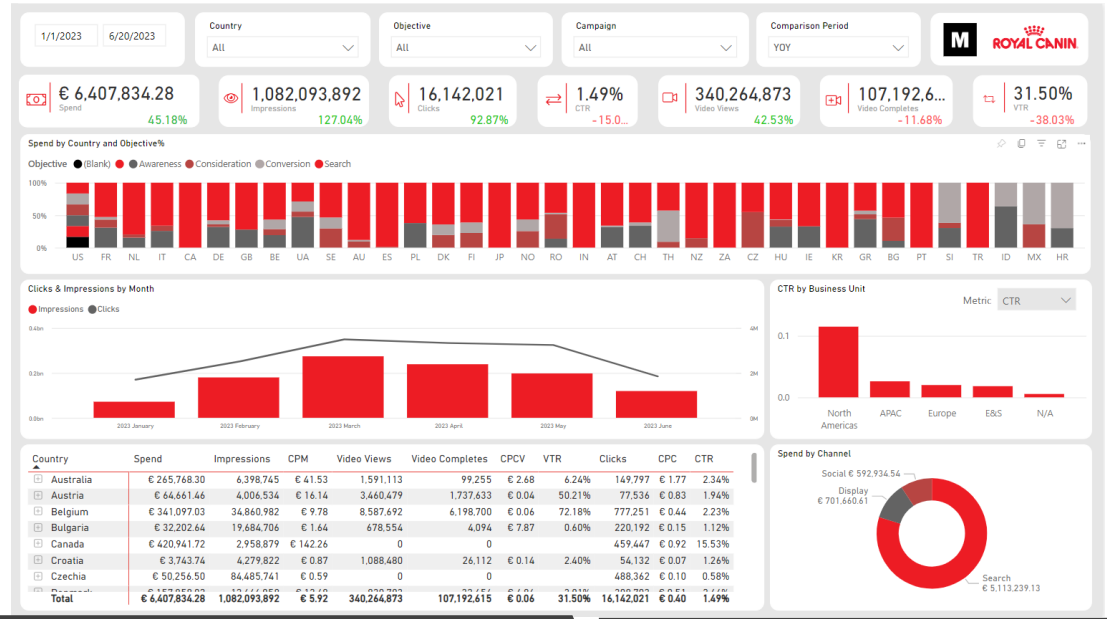

With the change to the naming convention this means that our global dashboard will need some development work in order to function correctly with new data layout

Markets that will be covered

Australia
Austria
Belgium
Bulgaria
Canada
Croatia
Czechia
Denmark
Finland
France
Germany
Greece
Hungary
India
Indonesia
Ireland

TARGETS OF DASHBOARD DEVELOPMENT

In order to minimise impact of the naming convention implementation on the current dashboard, local market reporting and other connected workstreams all development work will be done on a “hidden” version of the dashboard. **All changes and implementation will be live from January 2022**

What needs to be done	When are we aiming for	When will markets see changes
Addition of New markets	End Q3 2023	Q4 2023
Data lake changes for new convention	Q4 2023	Q1 2024
Changes to visualisation to display data	Q4 2023	Q1 2024
Buying teams to follow new convention by January 2024	Q1 2024	Q1 2024

These changes will be worked on throughout 2023 in the back end that will be set live for January 2024

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

Implementation Guide

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

SEARCH CONVENTION WILL HAVE THE GREATEST CHANGE

RESPONSIBLE: em

ROYAL CANIN® INCREDIBLE IN EVERY DETAIL

This is a Mars cross segment global initiative

We needed to evolve our naming convention to enable as much insight into our executions as possible, without compromising campaign setup efficiency

This will allow for enhanced reporting across WPP & Mars-owned dashboards – and more importantly, time saved on analysis and drawing insight.

Building in this way means that we can frequently cross-check market accounts with each other. Hard work can be done mining keywords in one market, and then can be easily shared across all markets to test. This ensures no gaps.

Old

CAMPAIGN NAME

Brand	Market	Language	Campaign	Sub Category	Campaign Type	Match Type
Royal Canin	FR	FR	Consideration	Dog	Generic	Exact

Remaining the same

AD GROUP NAME

DOG_CHOOSING_BREED_EXACT / SMALL DOG BREEDS

KEYWORD

'RACES DE PETITS CHIENS'

New

For Royal Canin the freefill option will be standardised

rc	eur	fr	fr	search	gog	n/a	search	royal-canin	keyword	impression-share	124	exact	Care-and - sensitivities

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

AO SEARCH THEME NAMING WILL CHANGE SLIGHTLY WITH THE NEW NAMING CONVENTION

After the brand Start of Life activation first launched we opted to keep “Birth & Growth” as the Always on PPC naming. However after time we feel the need to update this to have a more consistent naming across all channels and activations, both paid and non-paid. With this in mind “Birth & Growth” Will now be called “Start of Life” once the naming convention change comes into place

From a more practical side of things, we need to alleviate the strain that character count has upon naming conventions. In order to abbreviate where we can, for the sake of in platform naming, “Care & Sensitivities will now be named as “Care”

BIRTH & GROWTH	Becomes	**Start Of Life**
BREED	Remains	**Breed**
Care & Sensitivities	Becomes	**Care**
CONSIDERATION	Remains	**Consideration**

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

OUTSIDE OF SEARCH ALL BIDDABLE BUYING WILL HAVE THE SAME NAMING CONVENTION ACROSS ALL PLATFORMS

RESPONSIBLE: em

RESPONSIBLE: em

ROYAL CANIN
a division of Mars Petcare
ROYAL CANIN

RC Specific :

CAMPAIGN NAME

MARKET	The country media is purchased in
SUBPRODUCT	Name of the (sub)-brand the ad is used for
CAMPAIGN NAME	To identify the campaign, includes Mars period (e.g vnp-p8)
SEGMENT	Mars segment the product falls under
REGION	Region of the activation
PORTFOLIO	The portfolio that the product is part of, e.g. main meal, ready to heat
BUSINESS CHANNEL	The business channel which is promoting
MEDIA CHANNEL	the media channel in use, e.g. social, OLV
MEDIA OBJECTIVE	Media Buying objective
YEAR	Year the campaign starts, e.g. 22
MONTH	Month the campaign starts, e.g. 03
CAMPAIGN TYPE	Identifier to show if campaign is biddable or direct - and if they are addressable, ICJ
FREE ENTRY	Opportunity to add campaign specificity - e.g test programme/cell, PO/IO number, separated by "-"

TAXONOMY LAYDOWN

RESPONSIBLE:

AD SET OR DIRECT BUY PLACEMENT NAME

MARKET	the country media is purchased in
SUBPRODUCT	name of the (sub)-brand the ad is used for
CAMPAIGN NAME	to identify the campaign, includes Mars period (e.g vnp-p8)
LANGUAGE	What language is being targeted (e.g en, fr
STRATEGY	Pet Nutrition strategic goal of the campaign, e.g. see, think,…
PLATFORM	Buying platform (e.g direct buy, dv360, meta)
PARTNER	Media Owner
BUY TYPE	How the media is purchased, e.g. Auction, reserved
COSTIUNG MODEL	What the media is bought on (e.g CPM, CPV)
CAMPAIGN TYPE	identifying if the campaign is either data driven audience, addressable, ICJ (or both)
AUDIENCE TYPE	Categorising how the audience is defined (e.g demo-only, contextual, retargeting, interest..)
AUDIENCE NAME	Who the ad is targeting
DATA TYPE	If the activity is using first, second or third party data
OBJECTIVE	Goal of the campaign (e.g reach, video views, conversions)
OPTIMISATION	Optimisation event selected (e.g clicks, landing page views, add cart, purchases)
PLACEMENT	Type of placement where the ad is shown, e.g. Newsfeed, trueview
FORMAT	The type of creative asset(s) in use (E.g static, video)
DEVICE	the device type on which the ads will be shown (DSK, MBL, Hybrid)
AD TAG SIZE	Size of the tracking tag for Ad Ops (e.g 1x1)
ASSET SIZE OR LENGTH	True dimensions/length of the asset (eg 6s, 300z250)
	Opportunity to add any extra details

MPP CONFIDENTIAL

TAXONOMY RULES

Rules to follow when creating new campaigns

The separator for each information field is a underscore (“_”)

DO NOT leave free space and do not replace underscores (“_”) with dashes (“-”) or add additional underscores (“_”) in free fields

Everything has to be in lowercase, so NO uppercase letters to be used

None of the values must have free space, this also counts for between multiple words (e.g. young families), all free spaces should be replaced by a dash (“-”), NOT underscores (“_”)

DO NOT use “&” symbol, as it will break the UTM tracking

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

FIELD GLOSSARY & FAQS

FIELD NAME	QUESTION
SUB-PRODUCT	***When should I select the sub-product vs overall parent product?*** The overall parent product is available as an option when the campaign is due to feature multiple products – for example, a D2C campaign that features multiple sub-products
STRATEGY	***What does SEE/THINK/DO/CARE apply to?*** The overall campaign strategy for Pet Nutrition: • *see* = awareness • *think* = consideration • *do* = conversion • *care* = retention
BUYING TYPE	***I'm buying via Reach & Frequency on social – what does that fall under?*** Reserved
AUDIENCE TYPE	***I'm using "x" or "y" targeting type – what should I choose?*** • ***Interest*** – this will be your standard 'detailed' targeting on Meta, or standard affinity targeting on YouTube • ***Keyword*** – using specific terms, e.g for use on Twitter, Pinterest, Tik Tok • ***Demo-only*** – this is when **no additional targeting** is overlaid to age/gender • ***Behavioural*** – data categorised by specific actions, like being in-market for a product/purchase behaviour • ***Retargeting*** – Targeting previously exposed audiences (from a previous campaign, or our websites) • ***Lookalikes*** – Prospecting audiences built off existing data/remarketing pools (e.g video viewers of a previous campaign). AKA Similar Audiences on Google • Contextual – Targeting specific publishers/pages/videos for our ads instead of using data e.g YouTube Select Lineups • ***Life Events*** - *(Or Detailed Demographic) e.g married, parent, retirement*

COPYRIGHT MARS, INC. CONFIDENTIAL – INTERNAL USE ONLY.

Copyright © 2020 Mars, Incorporated — Confidential

FIELD GLOSSARY & FAQS

FIELD NAME	QUESTION
Audience Name	***When should I use the age brackets (A16-24) vs the generation name (e.g Gen Z)*** Generation names/labels should be used when **additional data is used** to identify them.
DATA TYPE	***What should I choose for "x" or "y" scenario*** The overall campaign strategy: • *1PD - any audience that is directly targeting or using Mars' owned data, e.g website audiences, MAIDs, video viewers, shopify audiences* • *2PD - everything platform-based, e.g interests, keywords, affinity etc* • *3PD - data provided from an external party not native to the platform, e.g liveramp*
OBJECTIVE	***What should I choose here?*** What is selected in-platform, e.g conversions – despite what you are optimizing/buying on
PLACEMENT	***What should I choose here?*** The placements selected in the campaign – if we are running multiple placements in one ad set on meta, then hybrid should be selected
DIMENSIONS/LENGTH & AD TAG SIZE	***What should I choose here at ad set/line item level?*** There is an n/a value to select here when building for biddable platforms
CREATIVE NAME	***What should I choose here?*** The creative name field is where you would place the **file name** of the asset received from creative teams – e.g '*fruityflavour-shuffleboard*'

FIELD GLOSSARY & FAQS

FIELD NAME	QUESTION
CAMPAIGN TYPE	***What are the differences between the options?*** • ***Data Driven Audiences & Moments*** • *leveraging data for audience creation (e.g Facebook Interests)* • ***Non-Addressable*** • *Broad audiences without leveraging data (e.g demo-only, 18+)* • ***Addressable*** • *Data Driven HVC and/or Moments*

DETAILS: DEFINING "ADDRESSABLE" USE OF MEDIA

If the campaign used a piece of data or a signal (whether 1PD or 2PD/3PD) to identify and address a specific audience and/or, behaviour and/or moment then it would be deemed to have used media addressable.

The audience, behaviour or moment may or may not be related to a seasonal or cultural occasion or a sporting event – the qualifying parameter is the active use of a data signal to identify and target the opportunity.

Simply targeting a broad category audience (with or without a sponsorship) during Xmas, Superbowl or CNY would not qualify a campaign on its own. However if the campaign used data to target a specific behaviour or moment during these tent-pole occasions (like using 1,2, 3rd party data signals to target Christmas or CNY party planners, or Halloween candy/consume purchaser) they would qualify .....otherwise not

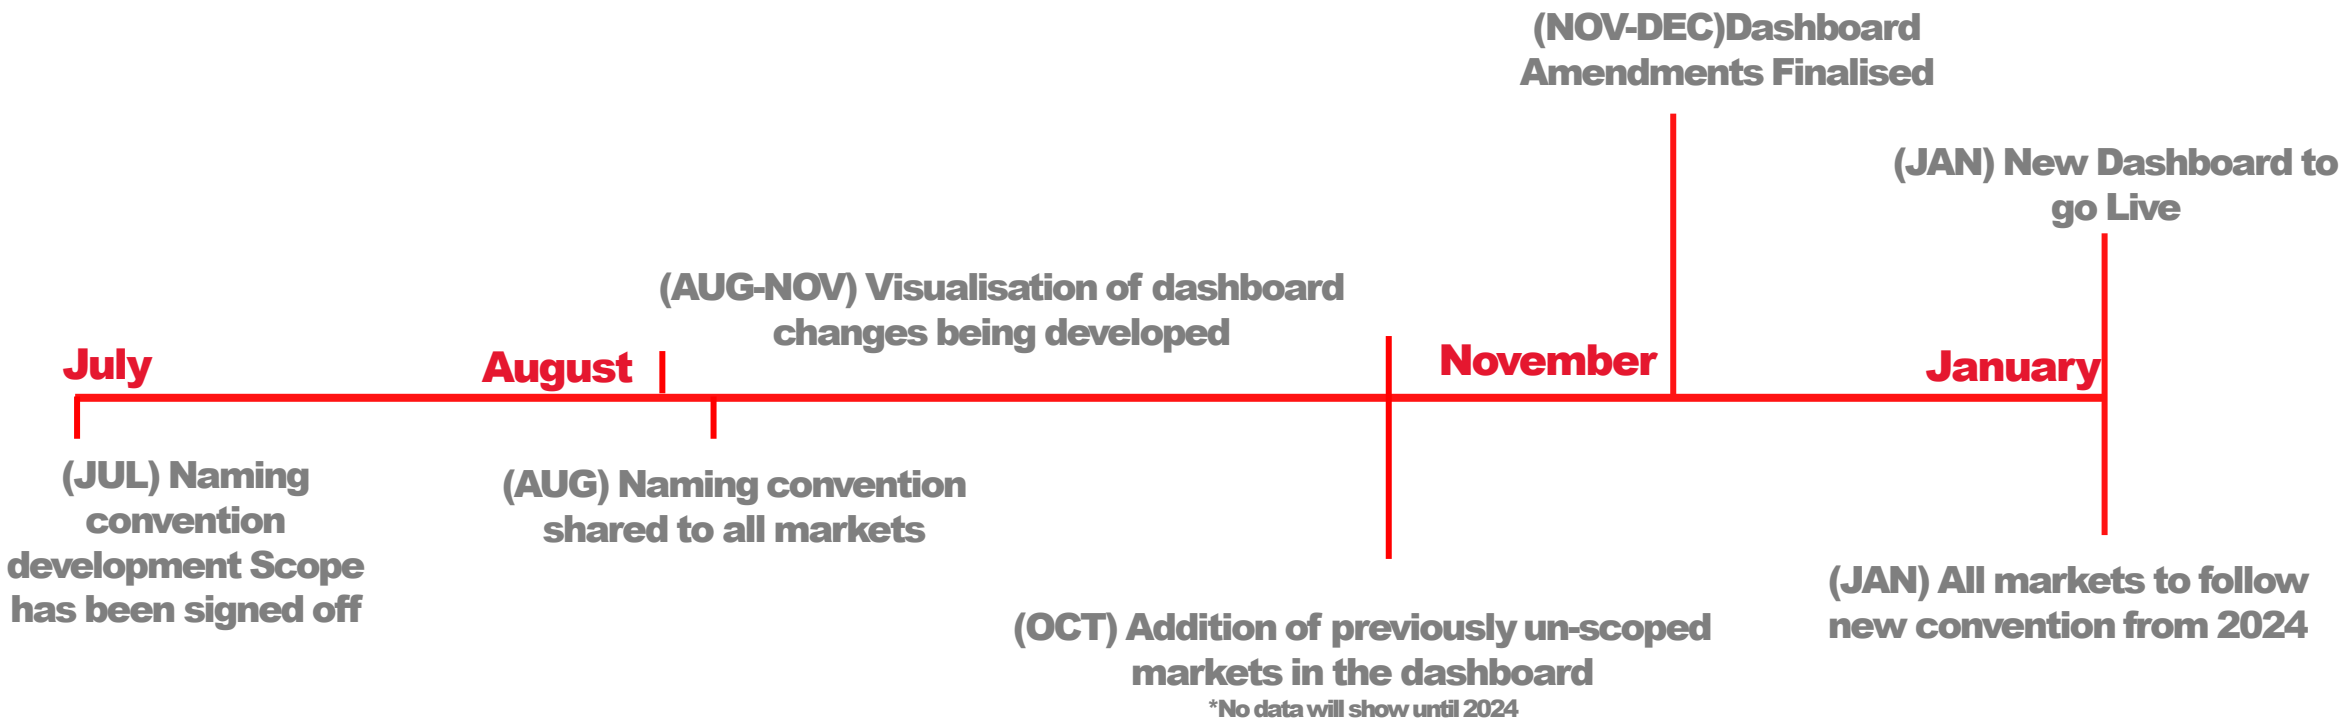

Examples of Addressable Use of Media: Targeting a sub-set of Pet Parents either through enriched MAIDS or other 1PD or via Google Pet Affinity would be included within Addressable - we are aiming for advanced tactics which would e.g. use 1PD but enrich them with other data sources e.g. purchase based behavioural data that would identify a Healthy Eater withing Pet Parents; Leveraging M&M's 1PD to create Look-a-Like and target sharing moment
