Uhub External users and Okta

- Requesting new accounts
- The invite
- Inactive user prompt (4 weeks)
- Inactive user - Account Suspension (8 weeks)

Uhub has moved to Okta as it's sole identify platform, all users (Internal - all WPP employees, and External - non-WPP employees) must have an active account in WPP's Okta (https://wpp.okta.com).

Some agencies historically had external accounts in their OpGroup's corporate directory (e.g. Wunderman Thompson 'INDEX') - those accounts are no longer used for Uhub access.

Requesting new accounts

If you require an external account to have access to Uhub, please submit a request at https://support.uhub.biz with the following information for the external user.

- First Name
- Last Name
- Email address
- Company

> WPP policy no longer permits external users to have email accounts from generic email providers (@gmail.com, @hotmail,com, @outlook.com, @yahoo.com, @aol.com etc).

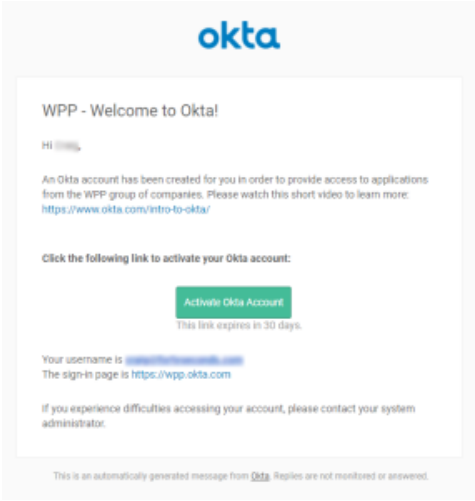

The requesting user must be a WPP employee and will become the account sponsor. The sponsor will be automatically emailed monthly to confirm whether continued access is needed.

> If details on the process needs to be sent to the Client / Vendor , you can download the pdf below and send the instructions to them

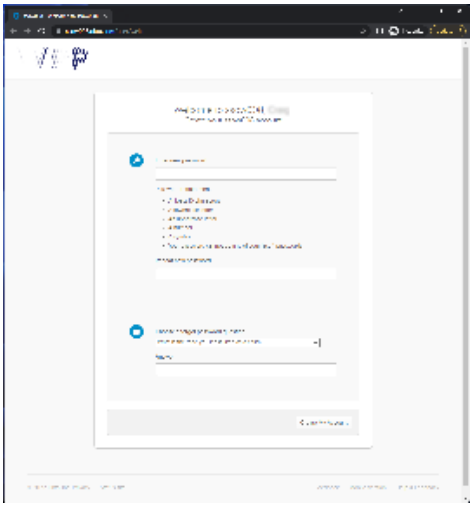

okta-user-guide-...artner-pages.pdf

The invite

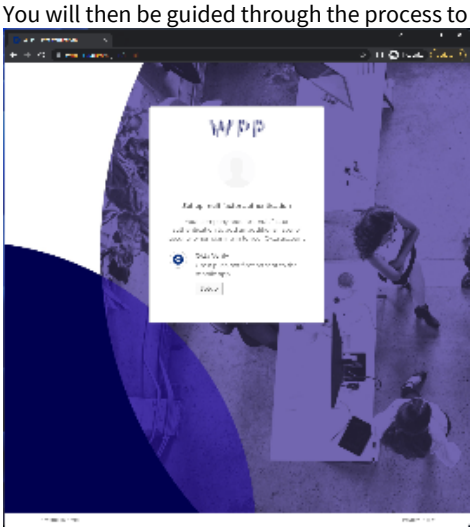

1. The invited user will receive a welcome email from Okta.
   The sender will be noreply@okta.com and the subject will be "Welcome to Okta!"

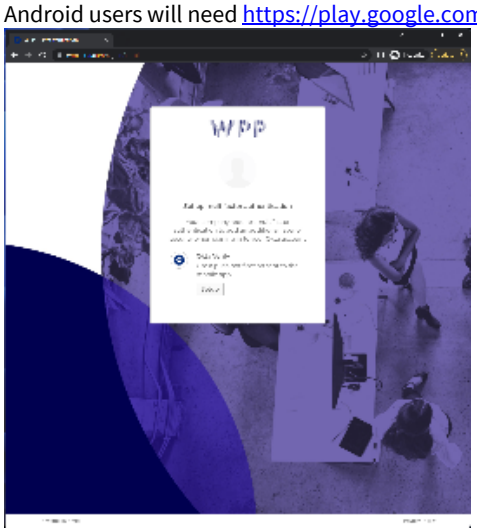

2. Click on the "Activate Okta Account" button and you'll be asked to setup a password and security question

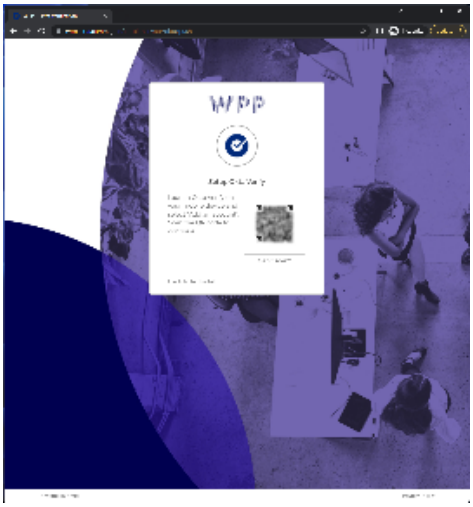

3. You will then be guided through the process to setup Multi Factor Authentication (MFA). Click "Setup"

4. Select your device type and click Next
    a. iPhone users will need https://apps.apple.com/us/app/okta-verify/id490179405
    b. Android users will need https://play.google.com/store/apps/details?id=com.okta.android.auth

    See https://help.okta.com/eu/en-us/okta_help.htm#cshid=csh-user-ov-overview for further instructions if needed
5. Open your camera and scan the QR code shown on your screen. This should open the Okta Verify application and a profile for wpp.okta.com

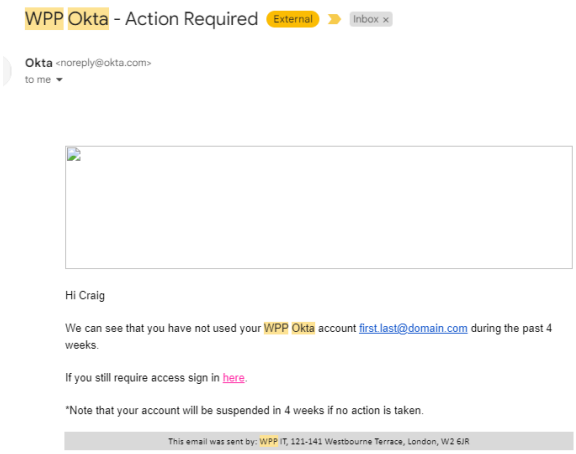

If you require assistance logging in such as a password reset, please get in touch with your agency contact for assistance.

Inactive user prompt (4 weeks)

If the external users account has not been used (a successful authentication to Okta) in 4 weeks, they will be sent a "WPP Okta - Action Required" email as below. The sender will be noreply@okta.com

Assuming access is required, they will need to follow the link in the email (or just visit [https://wpp.okta.com)](https://wpp.okta.com) and login

A similar email will also be sent at 6 weeks if the account remains unused

Inactive user - Account Suspension (8 weeks)

If the 4 and 6 week Inactive user emails are ignored, at the 8 week mark, the external users account will automatically be deactivated.

WPP Okta - Account Suspension External Inbox ×

Okta <noreply@okta.com>
to me

Hi Craig

We can see that you have not used your WPP Okta account first.last@domain.com during the past 8 weeks.

Your account has now been suspended.
